ATAFOM INFO OFFICES

Who we are?

ATAFOM University International - Atlantic African Oriental Multicultural - is a new international university founded by the Initiator, Founder and President of ATAFOM University International, Dr. Sakir Yavuz, with the aim of creating a borderless and cosmopolitan university to improve the educational offer for the world.

As a global university, ATAFOM University International promotes the idea of cross-border education and with its information offices, branches with campuses on five continents will provide education for young people interested in studying from different countries of origin, regardless of origin culture, skin colour, gender, and religion, so that these young people have the same right to education as in Western countries.

The decision to choose a country on the African continent for the university was made from the beginning by the visionary Dr. Yavuz. The university is founded after a long and intensive preparation period with a lot of consulting, research, advice, and preliminary discussions in the Central African Republic as a founding location, a country in the middle of Africa, on the basis of the agreement signed in December 2020 with the President of the Central African Republic Excellence Prof. Faustin-Archange Touadéra.

Our Motto

Education for Integration

Our Vision

The mission of ATAFOM University International is to provide quality education to young people around the world regardless of their different backgrounds such as economic status, belief, religion, colour, and gender.

ATAFOM University International aims to give young people in any part of the world the opportunity to learn and interact through synchronous learning and interaction with professors, lecturers, and other students from all parts of the world. Although the pedagogical approach at ATAFOM University International is Blended Learning, issues such as the possibility of lifelong education for all young people, access to education in times of outbreak and crisis that is particularly affordable for young people from low-income families have prompted ATAFOM University International to focus on synchronous online learning. To realize this mission, ATAFOM University International Info Offices have been established in all parts of the world.

ConiaSoft Online Campus of the ATAFOM University International

Due to the International orientation, the entire study program is conducted in English and initially 100% online. The ConiaSoft Online Campus has been developed, designed, and coded 100% by ConiaSoft, software engineers, software designers, and software developers and coders under the supervision and strict control of the Faculty of Information Technology of ATAFOM University International with the cooperation of the Information Technology Department of Perfect Timing Holding so that all courses of study and language training courses offered at ATAFOM University are achieved in the online campus of the university and that ATAFOM students from all over the world can easily realize their dreams of a better education from home.

ATAFOM University International currently operates in a synchronous online learning environment. Students attend live lectures with real-time interactions between educators and learners and the opportunity for instant feedback, providing many opportunities for social interaction between professors/lecturers and students and among the students themselves.
