# LIFE AT ATAFOM UNIVERSITY: READ WHAT OUR LECTURERS HAVE TO SAY

"I came to ATAFOM University having had 11 years of experience teaching at the University level. What I see at ATAFOM University is fascinating - a faculty that is more than willing to provide requisite assistance, a diverse group of students with a united hunger to learn and express themselves, an administrative structure that gives you the opportunity to contribute ideas for the growth of the system. This makes you feel like a team player.

I look up every day to my lecture periods with joy and expectations because I go online to find students who not only listen but contribute to the shaping of my curriculum and mode of lecture delivery. I find learning at ATAFOM a new way of defining education as we all know it. I would be glad to see others grasp the opportunity the university offers."

The Nigerian Broadcasting Commission granted the corporation a licence with the frequency modulation number 93.3 in Jos. It is situated at Zinaria Hill Layout, Number 62, off Bauchi Road in Jos.

# INTERNATIONAL COURTESY VISIT SERIES OF ATAFOM UNIVERSITY INTERNATIONAL TO THE UNIVERSITY OF ABOMEY CALAVI, BENIN ON JAN 06, 2023.

Université du Dahomey, the institution's original name, was established in 1970. The University management changed the name to Université Nationale du Bénin in 1975. In 1999, UAC enrolled more than 16,000 students, including more than 3,300 women. The University adopted its present name, the University of Abomey Calavi, in 2001.

As Benin's significant public university system, the University of Abomey Calavi (UAC) is the top University based on worldwide rankings. Located in West Africa, the University is situated in the country's southern metropolis of Abomey-Calavi. There are six campuses and 19 institutions that offer a variety of undergraduate and graduate programmes at several campuses around the region. The institution belongs to the Agence Universitaire de la Francophonie and the Association of African Universities.

With about 45,000 concurrent students, Abomey-Calavi University is a big university. Therefore, international applicants often apply and are accepted by the University. The University has 1400 qualified academic staff members to guarantee educational quality. One of the attractions of the University is its student exchange programme.

On Friday, January 06, 2023, a meeting was held between ATAFOM University International and the University administration. Mr Bienvenu Aïssan, the General Secretary Presidium, met with Mme SOGNON Lydia and Mr AGBAHOUNZO Cosme to introduce the mission and vision of ATAFOM University International. He was warmly received, and the representatives of UAC were excited about the vast prospects available once a relationship is established between the two Universities. A brief yet rewarding meeting ended with commitments for future sessions at which both universities would clearly define the relationship.

# INTERNATIONAL COURTESY VISIT SERIES OF ATAFOM UNIVERSITY INTERNATIONAL TO THE UNIVERSITY OF LOME ON JAN 11, 2023.

The University of Lomé (UL) is the most prominent university in Togo. The University of Lomé (Université de Lomé) was established in the city of Lomé in 1970 and renamed from the University of Benin (Université du Benin) in 2001 based on the decree N0. 2001-024 / PR of March 09, 2001.

Since the Network for Excellence in Higher Education in West Africa (REESAO) was established in 2005, UL has aggressively started a thorough reform of its training system. The goal of this reform, which the university management created to align the University institution of Lomé with the international education system, included, among others, the structuring of university time, training offers, teaching methods, administration and the management of student flows, and institutional governance.

Since its founding until May 31, 2017, UL has had three Presidents, a Rector, and a Chancellor. Professor Ampah G. Johnson served as the rector and chancellor of the Universities of Togo from 1970 to 1986 and 1999 to 2003. Professor Komlanvi Francisco Seddoh served as the rector of the University of Benin from January 1986 to September 1995. Professor Nicoué Lodjou Gayibor served as the president of the University of Liberia from October 2003 to August 2006. Professor Kofi Ahadzi-Nonou served as the president of the University of Liberia. Professor Dodzi Komla Kokoroko is the current president of UL. He was appointed on May 31, 2016, and assumed office as of May 31, 2016, by Presidential Decree No. 2016-065/PR.

In January 2023, Mr Bienvenu Aïssan, the General Secretary Presidium, had a courtesy visit with the Vice President of the University of Lomé. He presented ATAFOM University International, its mission, vision and plans. Although the meeting was brief, it was vital to establishing a relationship with the university. Mr Bienvenu Aïssan rose from the meeting with commitments from the Vice President for another session soon to discuss the fine details of a deeper relationship between the two universities.

# INTERNATIONAL COURTESY VISIT SERIES OF ATAFOM UNIVERSITY INTERNATIONAL'S SECOND VISIT TO THE UNIVERSITY OF LOME ON JAN 17, 2023.

On the 17th of January 2023, Mr Bienvenu Aïssan, the General Secretary Presidium, had a follow-up meeting with the Vice President of the University of Lomé. The two university's representatives set this meeting to discuss the details of the collaboration between the University of Lomé and ATAFOM University International.

The Vice President of the University of Lomé expressed deep interest in her University signing a memorandum of understanding with ATAFOM University. She informed Mr Bienvenu Aïssan that she would send a report to the President of the University of Lomé, who is also the Minister of Higher Education in Togo. This news thrilled Mr Bienvenu Aïssan because the President's acceptance of the report could open doors for many other collaborations across Togo and in different spheres of the country's educational system.

Mr Bienvenu Aïssan left the meeting highly elated, expecting a quick conclusion and initiation to the memorandum of understanding.

# INTERNATIONAL COURTESY VISIT SERIES OF ATAFOM UNIVERSITY INTERNATIONAL BY IT MEETINGS IN KONYA-TÜRKIYE ON JAN 19, 2023.

On January 19, a technology meeting was held with the PTH and ATAFOM University International President Sakir YAVUZ. Other participants of the meeting were Mr. Andreas GLEISENSTEIN, Vice President; Prof. Dr. Muhammet BEZIRCI, Head of Crypto; Mr. Anas JAWED, Head of IT Perfect Timing Technologies - PTT.technology; Mr. Shujat SIDDIQUI, Online Campus Administrator & Head of Graphic Design.

The purpose of the meeting was to discuss the ongoing IT projects and initiatives at the university. The meeting began with an overview of the current status of each project and any upcoming deadlines. During the meeting, the team had productive discussions on a range of topics, including recent projects and future plans. The meeting also covered the new technology and best practices that we could implement in our university.

Mr. Anas Jawed, Deputy and Director of the Faculty of Information Technology & Project Management Professional (PMP)<sup>®</sup> presented a new software at the meeting which is being developed in-house by Perfect Timing Holding - PTH.global by a development team from Perfect Timing Technologies- PTT.technology

A constant striving for technical advances of the IT team and thirst for knowledge motivates IT ATAFOM students to consistently learn and evolve. Every IT project undertaken by the IT team is driven by the zeal to deliver the best solutions for ATAFOM University and IT solutions for the most diverse areas of life & industry. The inquisitiveness of the team and the dedication of the IT ATAFOM students is the heart of all our IT developments.

**Mr. Anas JAWED,**  
**Deputy and Director of the Faculty of Information**  
**Technology,**  
**ATAFOM University International**

As the head of technology at Perfect Timing Technologies, I recently had the opportunity to attend a meeting in Konya, organised by Perfect Timing Holding, to discuss a new software development project. It was a truly valuable experience and one that I believe will be instrumental in the success of our company's future endeavors.

Upon arriving in Konya, I was immediately struck by the level of expertise and knowledge present among the team we were meeting with. It was evident that they had a deep understanding of the latest technologies and were well-versed in the industry trends. This was incredibly encouraging as we were looking to collaborate with a team that could bring fresh ideas and innovative solutions to our project.

The discussions we had during the meeting were productive and thought-provoking. We were able to identify several key areas where our companies could work together to deliver a truly cutting-edge solution. The team in Konya presented a clear and comprehensive approach to software scope that aligned well with our own goals and objectives.

One of the things that stood out to me during the meeting was the team's passion for their work. It was clear that they were driven to create something truly special and that they had a deep understanding of the importance of delivering high-quality software. This level of commitment is something that we value highly at Perfect Timing Technologies and it was great to see it mirrored in the team in Konya.

Overall, the meeting in Konya was an incredibly valuable experience for me and for Perfect Timing Technologies. I believe that the collaboration and partnership we are building with the team there will be instrumental in the success of our new software development project. I look forward to working closely with them in the future and to seeing the fruits of our labor come to fruition.

The study materials are summarized and easy to understand. The method of teaching is also interesting. So, basically, the teaching method and the convenience in timing are the biggest recommendations for me. In a physical university, there are a lot of challenges while online teaching and learning at ATAFOM University is convenient.

Compared to other schools I have attended; I feel it is a lot easier to ask a lot of questions. In my previous experience, teachers often shy away from answering difficult questions. They would prefer to give you those questions as assignments; they do not answer you and you end up discovering them on your own. But here at ATAFOM University, we can ask them a billion questions and they will give us a trillion answers. It has been fun as we have created this relationship with our lecturers. I am totally enjoying this learning process more than I had ever imagined it.

THE LONGEST PLACE NAME IN THE WORLD IS 85 LETTERS LONG, "TAUMATAWHAKATANGIHANGAKOAUUAUOTAMATEATURIPUK AKAPIKIMAUNGAHORONUKUPOKAIWHENUAKITANATAHU".

Would you dare pronouncing it? This is one of the facts you probably can't repeat to anyone—and that's because it's nearly impossible to pronounce. This place is in New Zealand. It's a hill near Porangahau, south of Waipukurau in southern Hawke's Bay, New Zealand. The height of the hill is 305 metres. The name of the hill has also been listed in the Guinness World Records as the longest place name.

Our ALA Lecturers also looked around for one of the longest words in English and German and here they are:

- the longest word in **English** is 45 letters long;

**"Pneumonoultramicroscopicsilicovolcanoconiosis"**

*meaning "lung disease caused by inhaling very fine ash and sand dust."*

- the longest word in **German** is 79 letters long;

**"Rinderkennzeichnungsfleischetikettierungsüberwachungsaufgabenübertragungsgesetz"**

*meaning "task transfer law concerning the supervision of the labeling of beef as meat on sale tags."*

- the longest word in **Turkish** is 70 letters long;

**"Muvaffakiyetsizleştiricileştiriveremeyebileceklerimizdenmişsinizcesine"**

*meaning "as though you are from those whom we may not be able to easily make into a maker of unsuccessful ones."*

- the longest word in **French** is 25 letters long;

**"Anticonstitutionnellement"**

*meaning "an action taken against the law of constitution."*

HOW TO LEARN NEW SKILL  
SETS IN 2023**

BY COMFORT BULUS

# ARTICLE: HOW TO LEARN NEW SKILL SETS IN 2023

Our world has become more intriguing thanks to technology. It is altering our viewpoints and redefining what is considered normal. It offers us a chance and the inspiration needed to create or accomplish previously unimaginable things. We can now readily and conveniently access vast knowledge thanks to the internet. The data we require could be there at our fingertips. Thanks to technology, kids, students, professionals, business people, and stay-at-home parents can all participate in an exciting new world of almost endless knowledge and other abilities.

You can always pick up new skills. There is always more to learn in a world of constant change. Learning a new skill can advance personal development for your career, present position, a new professional route, or future achievements. It may take some patience and time to learn new abilities. However, if you commit to learning something new, you can improve your knowledge base, broaden your professional networks, and increase your chances for job progression.

Whether you're five or 95, the internet has a lot to offer regardless of your age. Online materials are limitless and can be found on any subject. The best part is that you can download many top websites and apps for free. In addition, there are various free online learning options, from conferences to watching YouTube videos.

Some of the most significant advantages of learning a new talent, regardless of what kind of skill it is, are:

A. As you practise a new ability, your brain chemistry changes, which can help you perform better on various tasks.

B. Your ability to learn things more quickly improves as you gain new skills.

C. You establish links between different skill sets. Learning a new skill involves connecting it to knowledge and existing abilities.

D. As a result, you develop into a more well-rounded person. More well-rounded people find it easier to communicate and have more in common with others.

E. New skills will always energize you since learning new things keeps your interest high and prevents you from being bored as readily.

F. Your mind and views change when you know something new, so you can easily adjust to change.

G. Your mind and perceptions change when you learn something new, making it simpler to adapt to the inevitable changes life brings.

H. People can avoid dementia because those who actively know new abilities don't allow neurodegeneration to take place in their brains and have neuronal pathways that are open to new impulses. One characteristic of some of the most successful people is that they are constantly learning and improving their skills. Setting objectives to enhance many elements of your life is vital, but so is continuing to develop and learn new abilities.

If you want to learn something new and gain new skills, join ATAFOM University International – A future where any learner can access education to realize their potential without the boundaries of cost or geography is a core focal point of ATAFOM University. They don't just give students an education and experiences that set them up for success in a career. Instead, they help them succeed in their career – to discover a field they're passionate about and dare to lead it. The unique features of this University are that it provides mentorship and learning. Students integrate across cultures which provides for a wide range of experiences. It is not just an educational institution; students can learn quick and relevant skills that set them above their contemporaries in preparation for a great future.

The best approach to learning a new skill is enrolling in a course, preferably an affordable online course like ATAFOM University International. It not only allows you to save money but will also allow you to improve your skills and become a better, more knowledgeable person. So this year, as you acquire new skill sets, remember to be kind to yourself, record your learning in a journal, utilize all available resources and review your unique abilities as often as possible.
